Key Observations & Recommendations

1. Observations :

- Fire incidents dominate, with 2 critical and 2 warning-level cases.
- 57% of incidents are critical, indicating urgent safety risks.
- Assaults include 2 unresolved critical cases (Corniche Road) and 1 resolved high-severity case.
- 43% of incidents remain unresolved or in progress, requiring immediate attention.

2. Recommendations :

- Prioritize fire safety audits in high-risk zones (e.g., malls, Al Mushrif).
- Allocate additional resources to resolve in-progress fires (Khalidiya Mall, Yas Mall, Al Mushrif).
- Enhance patrols and response teams for unresolved critical assaults (Corniche Road).
- Conduct public awareness campaigns on fire prevention and personal safety measures.
