

## **\*\*Weekly Incident Report\*\***

### **\*\*Total Incidents:\*\***

7

### **\*\*Most Common Incident Type:\*\***

Fire (4 incidents)

### **\*\*Severity Distribution:\*\***

- Critical: 4
- High: 1
- Warning: 2

### **\*\*Locations with the Highest Incidents:\*\***

- Fire: Al Mushrif, Yas Mall, Khalidiya Mall, Hamdan Street
- Assault: Al Raha Beach, Reem Island, Corniche Road

### **\*\*Open vs Closed Case Summary:\*\***

- **\*\*Open Cases:\*\*** 4 (3 fires "in progress," 1 assault "unresolved")
- **\*\*Closed Cases:\*\*** 3 (2 assaults, 1 fire "resolved")

### **\*\*Key Observations & Recommendations:\*\***

#### 1. **\*\*Observations:\*\***

- Fire incidents dominated the week (57% of total cases), with 75% of fires still active.
- Assaults had the highest critical severity rate (2/3 incidents).
- Corniche Road assault remains unresolved, posing ongoing risk.

#### 2. **\*\*Recommendations:\*\***

- Prioritize fire safety audits in commercial areas (Yas Mall, Khalidiya Mall).
- Deploy additional patrols to monitor unresolved cases (Corniche Road) and active fire zones.
- Review protocols for rapid response to critical-severity assaults.
